Fuel Adjustment – Monthly Update October 2024

What is the rate? How does it work?

The average price is calculated by Brink's using the average weekly volume weighted retail price, including taxes, of diesel in Canada. This is reported by [The Kent Group](#), a company that provides data on Canada's retail petroleum industry. Customers will see a fuel adjustment charge on their monthly invoice.

Does it impact all Customers?

The Fuel Adjustment will apply to all new customers and all existing customers upon renewal. Exceptions could apply.

As you are aware, Fuel Adjustment is written into all new contracts and into most renewed contracts (exceptions do apply). This charge is a percentage of the customers' total invoice, and adjusted monthly based on changes in the average market price of diesel in Canada.

The current monthly average price is \$1.63

(Last month, the rate was \$1.68 per litre – a decrease of 5¢),

Accordingly, the Fuel Surcharge for October 2024 will be 25.5%. This will be reviewed again on October 15, 2024 based on the 4-week period ending October 14, 2024

Brink's Canada Fuel Surcharge GRID (Effective July 2023)

Min	Max	Surcharge	Min	Max	Surcharge	Min	Max	Surcharge
\$1.28	\$1.30	20.00%	\$1.61	\$1.63	25.50%	\$1.94	\$1.96	31.50%
