

Brink’s Canada Fuel Surcharge – Brinks Global Service Domestic Air

The grid below is effective to all customers as of April 1, 2022.
 The fuel surcharge effective April 1, 2022 will be 4.50%.
 The fuel surcharge will be on the freight cost only.

Calculation of Fuel Surcharge

Brink’s customers will have their fuel surcharge included on their invoice.
 Brink’s uses an index-based surcharge that is adjusted monthly. The surcharge will be calculated on the 15th of each month based on the preceding four week average of jet fuel. Changes will be effective on the first day of the following month. The surcharge will be based on the U.S. Gulf Coast (USGC) price for kerosene-type jet fuel as reported by the U.S. Energy Information Administration (EIA).
